Ewent EW3710 is an accessory planned for iOS, which needs just a free App, that will be installed automatically at the first introduction of the device into the Dock connector. DVB-T is compatible with iPad2, iPhone4S and followers.

Easy to install
Just search the App on Apple Store and then connect the EW3710 in the iPad or iPhone. Finally, following the QIG of the application.

Recorder your favourite show
Thanks to the record function it is possible to record your favourite show or movie. It will be saved on your Apple device. It is also possible to specify how much disk space you want to reserve to the registration.

Extended autonomy
Thanks to a powerful rechargeable battery it's now possibile to watch shows non-stop for 9h with iPad2.
